Q: Write a Java program to get a number from the user and print whether it is positive or negative

Answer:

Code:

```java
import java.util.Scanner;

public class Main {
  public static void main(String[] args) {
    Scanner input = new Scanner(System.in);
    System.out.print("Enter a number: ");
    int number = input.nextInt();

    if (number > 0) {
      System.out.println(number + " is positive");
    } else if (number < 0) {
      System.out.println(number + " is negative");
    } else {
      System.out.println(number + " is neither positive nor negative");
    }
  }
}
```

Output:
